Our Services

Road transport

We offer a wide-European collection service, including "Less than truck load" (LTL) and "Full truck load" (FTL) system through a network of reliable partners.

Sea + Air transport

Our company has a wide network of foreign partners to offer our customers flexibility regarding the type of services available in air or sea freight.

Customs services

We will ensure the import and export of the general cargo, truck and container shipments into free circulation up to complicated customs cases.

Warehousing and logistics

In cooperation with our domestic and foreign partners we offer storage options in round the year tempered warehouses, warehouse management and additional services such as sorting, packaging, assembly and labeling of consignments.

Products and Services

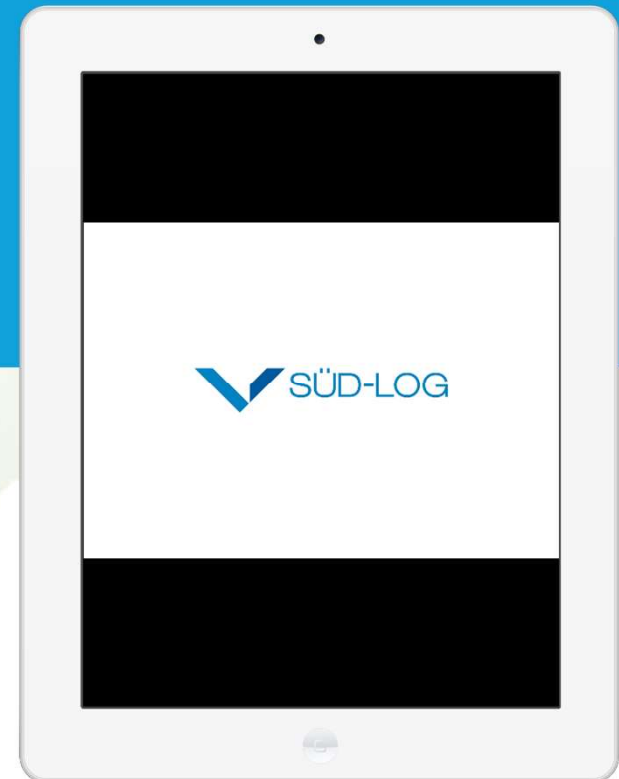

Pan - European
system of groupage,
part loads and FTL
service

National distribution
service in the Czech
Republic
(delivery within 24 hrs)

Express solutions

Our Mission

An advantage of private companies like SÜD-LOG Ltd. is an excellent knowledge of the local market and the needs of individual clients. This knowledge coupled with a personal attitude and a greater flexibility in achieving above-standard requirements ensures a competitive advantage over companies that build their business strategy around the lowest price level of products. SÜD-LOG Ltd. company plans to follow a well-established philosophy "think globally, act locally".
